

This website is an information hub to assist land managers, planners and others who need to know more about land use, land management practices and land cover data and information for Australia.

It contains information about land use, land management practices and land cover mapping in Australia, access to national classification systems, technical reports supporting mapping work, and analysis of land information.

This site provides access to downloadable data and the ability to view data using different analytical mapping tools.

The Land Use and Management Information for Australia website is maintained by ABARES on behalf of the [Australian Collaborative Land Use and Management Program \(ACLUMP\)](#).

Land use

 Nature conservation	 Plantation forestry	 Irrigated horticulture
 Other protected areas	 Dryland cropping	 Urban intensive uses
 Minimal use	 Dryland horticulture	 Intensive animal and plant production
 Grazing native vegetation	 Land in transition	 Rural residential and farm infrastructure
 Production forestry	 Irrigated pastures	 Mining and waste
 Grazing modified pastures	 Irrigated cropping	 Water
