

Name	Biography
-------------	------------------

Prof John Gibson (Chair)	Professor Gibson brings over 30 years' experience and international recognition in a wide range of disciplines including genetics, genomics, farming systems, livestock nutrition and economics of livestock production. He has worked extensively with local, national and multinational business and with international agencies and governments to take innovation into practice. Professor Gibson is currently Professor and Director at the Centre for Genetic Analysis and Applications, and Director International Development Activities in the School of Environmental and Rural Science at The University of New England (Armidale, NSW).
-----------------------------	---

Professor Gibson is a Director with the CRC for Sheep Industry Innovation.

Dr Sasha Courville	Dr Sasha Courville is Head of Social Innovation at the National Australia Bank (NAB). She has been leading Shared Value Thinking at NAB, identifying business opportunities that also meet society's needs, including driving NAB's Natural Value Strategy - an enterprise wide initiative focused on managing natural capital risks and identifying business opportunities arising from an increased focus on issues such as water, energy and soil health. Dr Courville has over 19 years of experience driving market transformation through sustainable value chains: as an international consultant, as a researcher at the Regulatory Institutions Network, at the Australian National University and as the Director of the London-based global association of sustainability standards initiatives (the ISEAL Alliance). Dr Courville is Chair of the Shared Value Project Advisory Board, a Board member of UN Global Compact Network Australia and an Australian Centre for International Agricultural Research Commissioner.
--------------------	---

Simone Kain	Ms Simone Kain is co-owner of creative agency Hello Friday and co-founder of award-winning educational brand George the Farmer. With extensive experience in website development and business management, Ms Kain has received a number of awards including the 2015 NAB Women's Agenda Regional Entrepreneur of the Year and the Brand SA Flinders Education Award. She is a current board member of Women in Agriculture, is a member of the board of Regional Development Australia Limestone Coast and sits on the Ignite Advisory panel for AgriFutures Australia.
-------------	--

Ms Kain was a national runner up in the 2017 AgriFutures Rural Women's Award.

She grew up on a mixed sheep and cropping property and her current family property situated near Penola, South Australia, specialises in beef-cattle trading and sheep for meat and wool.

Mr David Anthony's professional background of over 40 years has largely been involved with the agronomy, processing, exporting and marketing of broad acre crops especially irrigated cotton. Mr Anthony has also had significant participation in research, development and extension funding and management over several decades.

Mr Anthony is the former Chairman of the Australian Farm Institute; and Chairman and former CEO of Auscott Limited, a key agribusiness in Australia which produces significant volumes of agricultural commodities including cotton and grains.

Mr Anthony is a former director of the Plant Biosecurity Cooperative Research Centre and is a member of the NSW Minister for Primary Industries Ministerial Advisory Council.

David
Anthony

Mr Anthony's former directorships have included: Cargill Oilseeds Australia; Cargill Processing Limited; Cotton Seed Distributors (Director and Treasurer); Australian Cotton Growers Research Association (Vice Chairman); the Cotton Research and Development Corporation (Vice Chairman); and the Cotton Catchment Communities Cooperative Research Centre (Chairman).

He is currently a Council member on the NSW Department of Primary Industries Tocal College Advisory Council. As the former Chair of Career Harvest he retains a strong interest in the agricultural education initiative "Knowing and Growing", a joint venture between NSW Royal Agricultural Society, NSW Department of Primary Industries and Primary Industries Education Foundation Australia.
