

Overview

This project aims to improve northern Australia's ability to identify and respond to future biosecurity challenges. It will also provide more effective biosecurity risk management through modernisation of disease detection resources and surveillance in the region.

Project Lead: Berrimah Veterinary Laboratory; Department of Agriculture Fisheries and Forestry.

Project Contact: animalhealthlaboratories@aff.gov.au

Project Status: Active

Project Date: June 2022 - June 2026

Objective alignment:

- 2 – Improve Australia's surveillance and diagnostic capacity for animal pests and diseases.

Activity alignment:

- 2.1 – Implement actions under National Animal Health Surveillance Business Plan and National Animal Health Diagnostic Business Plan.
