

Overview

This Australian Centre for Disease Preparedness project developed and characterised an IHC test for the diagnosis and investigation of LSDV infection.

Project Lead: Australian Centre for Disease Preparedness

Project Contact: animalhealthlaboratories@aff.gov.au

Project Status: Completed

Project Date: Completed in June 2023

Objective alignment:

- 2 – Improve Australia’s surveillance and diagnostic capacity for animal pests and diseases.

Activity alignment:

- 2.1 – Implement actions under National Animal Health Surveillance Business Plan and National Animal Health Diagnostic Business Plan.
- 2.2 – Develop and implement novel technologies, such as point-of-care animal testing and genomics, to address gaps in diagnostic capacity.
