

Overview

This project helped develop a nationally consistent management approach towards the use of POC tests. These tests are specific for nationally notifiable diseases in terrestrial and aquatic animals in Australia.

Project Lead: Department of Agriculture, Fisheries and Forestry

Project Contact: animalhealthlaboratories@aff.gov.au

Project Status: Complete

Objective alignment:

- 2 – Improve Australia’s surveillance and diagnostic capacity for animal pests and diseases.

Activity alignment:

- 2.2 – Develop and implement novel technologies, such as POC animal testing and genomics, to address gaps in diagnostic capacity.
