

Overview

In 2023, AUSVETPLAN Response strategy: Lumpy skin disease Version 5.1 was published on the AHA website. Updates included relevant learnings from Exercise LSD2, a government and industry exercise held in December 2022 to test components of the previous version of the AUSVETPLAN Response strategy: Lumpy skin disease.

Project Lead: AHA

Project Contact: aha@animalhealthaustralia.com.au

Project Status: Complete

Objective alignment:

- 1 – Improve Australia's preparedness and ability to respond to emergency animal diseases (EAD).

Activity alignment:

- 1.1 – Continue to implement recommendations from emergency responses including EAD incursions, COVID-19, previous EAD simulation exercises and recent natural disasters.
