

Overview

Animal Health Australia and the Department of Primary Industries and Regions, South Australia funded the development of an app, Sheep EAD AR. This app is available in the Apple, Google play and Microsoft App Stores.

Producers and other stakeholders can use the app on mobile devices and the HoloLens to identify signs of FMD, bluetongue, scrapie and sheep pox.

Project Lead: Animal Health Australia

Project Contact: aha@animalhealthaustralia.com.au

Project Status: Complete

Objective alignment:

- 1 – Improve Australia's preparedness and ability to respond to emergency animal diseases (EADs).

Activity alignment:

- 1.5 – Implement innovative technologies and training to meet national EAD education and training needs.
