

Overview

This project aims to further validate the host microRNA biomarker response-based assays previously developed in another project to improve detection of Johne's disease in cattle.

Project Lead: Australian Centre for Disease Preparedness; Department of Agriculture, Fisheries and Forestry

Project Contact: Animalhealthlaboratories@aff.gov.au

Project Status: Complete

Project date: April 2024 to May 2025

Objective alignment:

- 2 – Improve Australia's surveillance and diagnostic capacity for animal pests and diseases.

Activity alignment:

- 2.1 – Implement actions under National Animal Health Surveillance Business Plan and National Animal Health Diagnostic Business Plan.
