

For aircraft operators looking to stay ahead of the curve, this is your hangar of helpful tools and sharp guidance.

Final Approach fact sheets

Our 'Final Approach' factsheets have been developed to support your understanding of key biosecurity concepts for aircraft:

Airline Industry Biosecurity Bulletin

The Airline Industry Biosecurity Bulletin provides essential updates and reminders on airline biosecurity requirements.

Don't miss the next edition of the Airline Industry Biosecurity Bulletin! [Subscribe](#) to the Airline Industry Biosecurity Bulletin under 'Biosecurity news' to receive the next edition direct to your mailbox.

Previous editions:

AirServices Australia Information Publication

The [AirServices Australia Aeronautical Information Publication \(AIP\)](#) manual for pilots, air traffic controllers and other aviation professionals details national aviation regulations and procedures.

The AIP is essential for safe and efficient air navigation in Australian airspace.

Contact us

Biosecurity Airport Contact List for Airlines and Aircraft Operators

The Biosecurity Airport Contact List for Airlines and Aircraft Operators provides the local biosecurity airport contact to assist with specific airport enquiries.

For general enquiries, contact conveyance.aircraft@aff.gov.au.
