If you export to Northern Ireland, or markets other than listed in the table above you will need to continue the current manual application process to obtain export certification.

All skins and hides export certification is now issued through NEXDOC.

You will need to be registered in NEXDOC to raise new export certification for the export of Skins and hides.

All wool product export certification is now issued through NEXDOC.

You will need to be registered in NEXDOC to raise new export certification for the export of wool.

Most inedible meat export certification is now issued through NEXDOC.

Inedible meat products include raw and processed pet food, rendered products, and other animal-derived materials.

Exporters, agents, and freight forwarders are now required to submit certification requests through NEXDOC. While most certification processes have moved to the platform, some manual documents remain in use.

To clarify which documents are still issued manually, please contact nexdoc@aff.gov.au.

All certificate applications — including the NX188B, NX188M, and NX418 (formerly EX188B, EX188M, and M418) — have transitioned to the NEXDOC system.
