

We've put together some resources to help you on your dairy export journey.

- A step-by-step guide developed for you to export dairy products. It helps with importing country requirements and Australian export laws.
- A [welcome pack](#) to aid dairy manufacturers looking to become export registered. The welcome pack helps to improve industry's understanding of requirements and expectations when applying for dairy export registration.
- The Dairy Export Registration Manual (DERM) provides a deep dive into each element of an [approved arrangement](#) to help manufacturers and exporters to better understand the requirements and obligations for becoming export registered and meeting export and importing country requirements.
- A tool that supports enterprises to export Australian products to international markets.
- Sets out the importing country requirements that exporters need to follow for their products to be accepted in international markets.
- Connects Australian businesses to the world and unlocks opportunities in the international market.

If you have questions that are not answered here, we'd love to hear from you. [Contact us](#) and we'll be in touch.
