

We regulate the export of live animals under [our regulatory framework](#).

In regulating the export of live animals we make certain regulatory decisions.

We publish a public statement for significant regulatory decisions we make.

The information we publish may include the name of the holder of an export licence, occupier of a registered establishment or export business. This encourages compliance with [our regulatory framework](#), and provides assurance to Australia's trading partners regarding how we regulate livestock exports.

Public statements

On 26 January 2024, the Department of Agriculture, Fisheries and Forestry received a Notice of Intention (NOI) to export given by the exporter in relation to a consignment of sheep and cattle onboard MV Bahijah under paragraph 8-6(2)(b) of the Export Control (Animals) Rules 2021 (the Rules).

On 5 February 2024, the NOI to export was refused for approval by the delegate.

On 16 June 2020, we made the decision to issue a reprimand to Australasian Global Exports Pty Ltd (AGE) for a breach of its licence conditions as it did not have sufficient systems and controls in place to ensure that livestock sourced for export met importing country requirements for a consignment being prepared in 2019. We were not satisfied that the AGE consignment met the importing country requirements and took immediate action to stop the export in 2019 when issues came to our attention.

On 2 June 2020, we made the decision to not grant Rural Export and Trading (WA) Pty Ltd an exemption to export livestock after 1 June. The livestock vessel Al Kuwait was unable to depart prior to June 1 as planned, following confirmed cases of COVID-19 among crew members. The exporter

submitted an application to us for exemption from the June 1 export deadline under the Australian Meat and Live stock Industry (Prohibition of Export of Sheep by Sea to Middle East—Northern Summer) Order 2020, including an Animal Welfare Management Plan. A statement of reasons is here.
