

What is TRACE?

TRACE is our online service for managing livestock export approvals and Notices of Intention (NOIs). We also use it to manage regulatory information about:

- livestock export licences
- registered establishments
- accredited veterinarians.

Notices of Intention

If you are a licensed livestock exporter or export animal reproductive material, you need to use TRACE to:

- submit an NOI
- view export licences (livestock exporters).

Set up TRACE in the Export Service

Access to TRACE is in the [Export Service](#). To submit or manage Notices of Intention (NOIs), you will need to create an account.

Get set up in the Export Service

Follow our step-by-step guide [TRACE onboarding to the Export Service](#).

After your account is set up, you need to [connect TRACE to the Export Service](#).

If you can't access the Export Service to submit your NOI, email us at:

- TRACE@aff.gov.au for livestock exports
- genetics@aff.gov.au for animal reproductive material exports.

Contact us

You can contact us at one of our [live animal export offices](#).
