Key dates to remember

- 1 January - Quota year commences
- 31 December – Quota year finishes

Current Quota usage

The quota usage tables show the total quantity of quota used by Australia for A-UK FTA products. The tables are updated regularly.

Apply for a quota certificate for dairy

Exporters will need to apply to export dairy to UK at the reduced tariff rate.

To apply for a quota, certificate an exporter must:

- [lodge a request for export \(REX\) through the department's electronic documentation system, NEXDOC](#)
- tick the quota indicator box.

A-UK FTA quota certificates cannot be amended without the corresponding export documentation amended, so if there is a change to the exporter, importer, product type or quantity of the shipment after the certificate has been issued the existing certificate may need to be cancelled and a replacement certificate issued. Contact [Quota Admin](#) if there is a change to any details on the certificate.

Note: Quota administration is cost recovered on a per certificate basis in accordance with the Export Charges (Imposition-General) Regulation 2021 and the Export Control (Fees and Payments) Rules 2021. Exporters are invoiced monthly for any quota certificates issued. The current cost recovered amount is \$42 per certificate issued.
