

The Department of Agriculture, Fisheries and Forestry manages 10 quotas under the Australia-United Kingdom Free Trade Agreement (A-UK FTA), including rice.

Australian exporters can export up to 1,000 tonnes/year of Long Grain Rice and 11,500 tonnes/year of Broken Rice at a 0% tariff rate. Access to the quota is on a first-come, first-served (FCFS) basis until the available quota amount has been exhausted.

Note: the volume access amounts for year 1 of the agreement are pro-rata amounts. Long grain rice pro-rata amount is 589.041T and broken rice pro-rata amount is 6,773.973T for year one and then the agreed amount for the following years of the agreement.

Exporters can use the [Department of Foreign Affairs and Trade tariff portal](#) to find the current tariff rate applying to their product and to compare the tariff reduction received under both the A-UK FTA agreements.

## Key dates to remember

- 1 January - Quota year commences
- 31 December - Quota year finishes

## Current Quota usage

The quota usage tables show the total quantity of quota used by Australia for A-UK FTA products. The tables are updated regularly.

## Apply for a quota certificate for rice

Exporters will need to apply to export rice to UK at the reduced tariff rate.

To apply for a quota certificate an exporter must:

- Complete and submit the A-UK FTA rice [TRQ certificate application](#) using the online submit button on the last page of the form.

Please note, you cannot apply for a quota certificate more than 3 weeks before your consignment is due to depart Australia.

A-UK FTA quota certificates cannot be amended without the corresponding export documentation being amended, so if there is a change to the exporter, importer, product type or quantity of the shipment after the certificate has been issued the existing certificate may need to be cancelled and a replacement certificate issued. Contact [Quota Admin](#) if there is a change to any details on the certificate.

Note: Quota administration is cost recovered on a per certificate basis in accordance with the Export Charges (Imposition-General) Regulation 2021 and the Export Control (Fees and Payments) Rules

2021. Exporters are invoiced monthly for any quota certificates issued. The current cost recovered amount is \$86 per certificate issued.

## Issuing a quota certificate

Under the legislation the department is required to provide a paper-based certificate with an original government stamp and signature for all UK certificates. To comply with this process the department will issue a paper-based certificate and post to the exporter using the standard Australia Post method.

The department will provide the exporter with an electronic copy of the certificate and then post the original to the exporter as this will be required by UK Customs.

The department can send certificates to exporters using Express Post through Australia Post if the exporter provides the department with self-addressed envelopes. If an urgent certificate is required to be sent directly overseas this can be done if the exporter provides the department with courier satchels and account details.

If a certificate is required urgently, email the Quota unit with the RFP/REX number of the consignment that requires a manual certificate. The email must be received by the Quota Unit no later than 10.00am (Canberra time) for same-day processing.

## Read the detail

### Legislation

The [Export Control \(Tariff Rate Quotas—General\) Rules 2021](#) governs the rules around quotas for rice to UK.

### Data collection

We report on export quotas using data submitted for certificate applications.
