

Fees and charges apply to different stages of an approved arrangement (AA).

They apply to:

- new AA applications
- AA management
- AA audits (includes pre and post approval)

Biosecurity fees and charges will increase with yearly indexation.

Tables show the fees and charges for the financial year 2026/2027.

Note: Where assessments span across financial years, different charge rates may apply to services provided at different times. [Refer to Biosecurity cost recovery implementation statements](#)

Biosecurity fees include minimum charges. If the assessment of your application or request is expected to take more than twice the time covered by the minimum fee, the department will contact you to see if you wish to proceed.

Annual charge

The annual charge is incurred by the legal entity, not by individual AAs and cannot be split across multiple AA sites.

Note: The charge still applies where a legal entity has suspended AAs.

The charge applies if an approved arrangement is active at any time during the financial year (1 July to 30 June), even if only for a single day.

The rate of the annual charge is determined by:

- the first date the legal entity holds an approved arrangement during the financial year, and
- the number of arrangements held under the same legal entity (as defined by ABN).

Invoices are issued annually. Refunds are not available.
