

Improving access to imported food safety requirements

Imported food safety requirements are now included in the [Biosecurity Import Conditions system \(BICON\)](#).

See more about the [Inclusion of food safety requirements in BICON](#).

All biosecurity requirements must be met before [Imported Food Inspection Scheme](#) requirements apply.

Check our [Biosecurity Import Conditions system \(BICON\)](#) for biosecurity import conditions.

Food type

This includes:

- shredded coconut and coconut meat including fresh, chilled, frozen or dried
- desiccated coconut.

Exclusions

Food from [New Zealand](#).

Inspection and testing

This food is classified as a [surveillance food](#).

We refer consignments for analytical testing at the rate of 5%. During inspection, we will also conduct a visual and label assessment.

Table 1 shows the test that will be applied and the permitted result.

Table 1, Test applied and permitted result

Test applied Permitted result

Salmonella n=10, c=0, m=not detected in 25 g

n = the number of samples to be analysed from a lot of food.

c = the maximum number of sample units that can be greater than 'm'.

m = the acceptable microbiological level in a sample unit.
