

Improving access to imported food safety requirements

Imported food safety requirements are now included in the [Biosecurity Import Conditions system \(BICON\)](#).

See more about the [Inclusion of food safety requirements in BICON](#).

All biosecurity requirements must be met before [Imported Food Inspection Scheme](#) requirements apply.

Check our [Biosecurity Import Conditions system \(BICON\)](#) for biosecurity import conditions.

Food type

Honey

Exclusions

Food from [New Zealand](#).

Inspection and testing

This food is classified as a [surveillance food](#).

We refer consignments of honey for analytical testing at the rate of 5%. During inspection, we will also conduct a visual and label assessment.

Table 1 shows the tests that will be applied and permitted results.

Table 1, Tests applied and permitted result

Test applied	Permitted result
C4 sugar adulteration	Less than or equal to 10%
Moisture content	Less than or equal to 21%
Reducing sugars	Greater or equal to 60%
