

Phalaenopsis spp. nursery stock can be imported into Australia either as nursery stock other than tissue cultures, or as tissue cultures (please see the department's import conditions database [BICON](#) for conditions).

Phalaenopsis spp. nursery stock other than tissue cultures can be imported from a 'non-approved source' or from a high health 'approved source'.

Phalaenopsis spp. nursery stock (other than tissue cultures) from a non-approved source are subject to biosecurity measures onshore in Australia. This includes insecticide treatment under supervision of a biosecurity officer and then growth and disease screening for a minimum of three months at either an Australian Government post-entry quarantine facility, or at a class 5.14 or 6.1 approved arrangement site.

What is a Phalaenopsis spp. nursery stock approved source?

Phalaenopsis spp. nursery stock (other than tissue cultures) from an approved source are produced under a "systems approach" in Taiwan which has been agreed to by the Department of Agriculture, Fisheries and Forestry (the department). This approach applies equivalent biosecurity measures to those performed on arrival in Australia. The systems approach reduces the risks of pests being present in imported consignments by ensuring the use of pest-free mother stock and maintaining a secure production environment to produce high health plants.

Summary of conditions for Phalaenopsis from an approved source:

The systems approach ensures Phalaenopsis spp. nursery stock for export to Australia from Taiwan are

- grown in an Animal and Plant Health Inspection Agency (APHIA) registered greenhouse for a minimum of 4 months prior to being exported to Australia
- sourced from pest-free mother stock that has been virus-tested
- grown in an approved growing medium which has been pasteurized using hot water (80 °C for 30 minutes) Note: plants may also be exported bare rooted
- grown in an approved growing medium which has been pasteurized using hot water (80 °C for 30 minutes) Note: plants may also be exported bare rooted
- regularly inspected by APHIA during the growth in quarantine for pests and pathogens of quarantine concern to Australia
- subject to an insecticidal and fungicidal treatment prior to export to Australia
- inspected immediately prior to export by APHIA to ensure freedom from live insects, disease symptoms and any other material of quarantine concern.

For further information, please see the [Final review of policy for the importation of Phalaenopsis nursery stock from Taiwan](#).

Importing Phalaenopsis spp. nursery stock from an approved source

Import conditions are listed in the BICON case titled 'Phalaenopsis spp. from an approved source in Taiwan'. Import conditions are publicly available on [Biosecurity Imports Conditions \(BICON\)](#).

Importers must hold a valid import permit and check specific import requirements for species they wish to import. The department also recommends that approved facilities regularly check Australian import requirements.

List of Phalaenopsis approved sources from Taiwan at 24 April 2026

Name of Facility / Grower	Grower's Address	Grower Number	Greenhouse Registration No.
Abundance Biotechnology Co., Ltd	No. 35 Ln. 41, Longshe Rd., Longjing Dist., Taichung City	50-AP-014	50-AP-014-01 (approved 1 May 2020)
Brother Orchid Nursery Co., Ltd	No.35, Ln. 41, Longshe Rd., Longjing Dist., Taichung City	50-AP-006	50-AP-006-01 (suspended 24 April 2026)
Chen Chun Peng	No.3-17, Tianzilin, Dapi Township, Yunlin County	50-AP-012	50-AP-012-01 50-AP-012-02
Chen Yu-Yu Orchids	No. 336, Wushulin, Houbi Dist., Tainan City	70-AP-015	70-AP-015-01 (approved 18 February 2021)
Chi Yueh Enterprise Ltd	No.1-68, Nanjin Rd., Wanluan Township, Pingtung County	70-AP-011	70-AP-011-01 70-AP-011-02
Chuang, Min-Li	No.430, Wushulin, Houbi Dist., Tainan City	70-AP-013	70-AP-013-01 (approved 28 April 2020)
Erin's Flower	No.503, Wushulin, Houbi District, Tainan City	70-AP-016	70-AP-016-01 (approved 10 July 2026)
Ho Xin Biological Technology Co., Ltd	No.57-1, Xiatandi, Dalin Township, Chiayi County	50-AP-015	50-AP-015-01 (approved 1 May 2020)
		50-AP-001	50-AP-001-01

I Hsin Biotechnology Inc.	No. 20-1, Hu Tzu, San-Tsun Li, Talin Town, Chiayi County		50-AP-001-03
Kailing Biotechnology Co., Ltd	No.385, Wushulin, Houbi Dist., Tainan City	70-AP-012	70-AP-012-01
Oriental Orchids	No.26-10, Neighborhood 11, Wacuopu, Longshan Vil., Jhuci Township, Chiayi County	50-AP-010	50-AP-010-01 (reinstated 25 September 2025)

Yu Pin Biological Technology Co., Ltd	No.39, Huweiliao, Minxiong Township, Chiayi County	50-AP-016	50-AP-016-01 (approved 8 May 2020)
		70-AP-004	70-AP-004-01

Yu Pin Biological No. 376, Wushulin, Houbi District,
Technology Co., Ltd Tainan City

Notes:

Only growers and greenhouses approved above are able to export under the conditions for *Phalaenopsis* spp. from an approved source in Taiwan. Suspended or withdrawn sources are not considered approved.

The department reserves the right to suspend a facility, grower or greenhouse in the event of interceptions of biosecurity pests on-arrival in Australia. Reinstatement will be subject to an investigation by APHIA and implementation of corrective actions.

When a new facility, grower or greenhouse is registered and approved by APHIA, they will notify the department who will then update the list.
