

The following publications are produced by the Animal Health Policy Branch in Animal Division.

These bulletins are provided as published in the Australian Veterinary Journal and are not kept updated. For more current information please see the World Organisation for Animal Health [technical disease cards](#) or the [WAHIS interface](#).

If you would like to receive new bulletins by email, please subscribe by visiting the Department of Agriculture, Fisheries and Forestry [subscription centre](#) and selecting 'Emergency Animal Disease Bulletin' (from under the heading 'biosecurity news').
