

The Final Pest Risk Analysis (PRA) for Khapra Beetle – Part 1 (plant products pathway) was published on 27 August 2026.

Emergency measures will remain in place until the updated import conditions are finalised and published on the [Biosecurity Import Conditions system \(BICON\)](#).

Work is also underway on the PRA – Part 2 (sea containers pathway), with a draft expected to be released in early 2027. For more information visit the [Khapra beetle pest risk analysis web page](#).

Khapra beetle (*Trogoderma granarium*) is a small but serious [hitchhiker pest](#), and we want to keep it out of Australia. As such, we have implemented urgent measures that will affect the importation of plant products and sea containers.

Khapra beetle is [Australia's number two National Priority Plant Pest](#) and the number one plant priority pest for grains. It is not present in Australia, but it is a highly invasive pest that poses a major threat to Australia's grains industry. Khapra beetle destroys grain quality making it unfit for human or animal consumption.

A number of countries, including Australia, have seen a recent increase in khapra interceptions. It is being detected in:

- imported plant products
- goods that it previously had no association with
- sea containers as a hitchhiker pest
- imports from countries not known to have khapra beetle.

Learn more about:

- khapra beetle in our [pest bulletin](#)
- the hitchhiking risk of khapra beetle [in our article](#).

Posters

We have developed the following posters on where to look for khapra. Help us keep khapra beetle out of Australia by sharing them with your networks.

These are countries where khapra beetle has established.

Afghanistan	Mauritania
Albania	Morocco
Algeria	Myanmar
Angola	Nepal
Bangladesh	Niger
Benin	Nigeria
Burkina Faso	Oman
Chad	Pakistan
Côte d'Ivoire (Ivory Coast)	Qatar
Cyprus	Saudi Arabia
Egypt	Senegal
Ghana	Somalia
Greece	South Sudan
Guinea	Sri Lanka
India	Sudan
Iran Islamic Republic of	Syrian Arab Republic
Iraq	Tajikistan
Israel	Tanzania
Jordan	Timor-Leste
Kazakhstan	Tunisia
Kuwait	Türkiye
Lebanon	United Arab Emirates
Libya	Yemen

Mali

Implementation dates for the urgent actions
