

Biosecurity is a multi-layered issue. To aid understanding of biosecurity and how it impacts Australia, the department creates videos and other helpful visual resources for reference.

Here you will find materials developed specifically to aid awareness of current biosecurity issues and topics.

Biosecurity overview

Impacts of biosecurity on Australia.

Travellers

Your biosecurity responsibilities.

Pathways – cargo, mail and air

Import conditions, compliance and safeguarding against biosecurity threats.

Animal biosecurity

Biosecurity & high-risk animal diseases.

Plant biosecurity

Biosecurity & high-risk plant diseases and pests.

Australian Chief Plant Protection Officer, Dr Gabrielle Vivian-Smith, provides an overview of the Khapra beetle.

Innovation & biosecurity

How we're working smarter to mitigate biosecurity risks.
