

To support implementation of the [Biosecurity Act 2015](#) we have released an interactive learning tool to help clients and stakeholders gain a deeper understanding of the legislation and the changes for individuals and businesses.

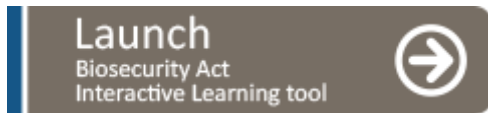

The Introduction to the Biosecurity Act Interactive Learning tool outlines the [legislative framework](#) for managing Australia's Biosecurity System from 16 June 2016, including an overview of key chapters in the Biosecurity Act and the interaction of supporting delegated legislation.

The tool:

- introduces new terminology
- outlines key roles and powers
- explains the operational jurisdiction of the Act, including where the legislation applies and who will be impacted
- provides case studies and scenario examples to help you understand how the Act may apply in real-life situations.

Access Introduction to the Biosecurity Act Interactive Learning

Launch [Introduction to the Biosecurity Act Interactive Learning](#)

Clicking the link will launch a new window where the tool will run.

This learning tool uses Adobe Flash Player. If you experience errors, review your [Flash Player](#) settings. Alternatively, access the assistive technology version by selecting 'Yes' in the 'Before you start' window on the index page of the learning tool.

For help accessing the learning tool email [Biosecurity Legislation Implementation](#).
