

The Dairy Export Industry Consultative Committee (DEICC) is the principal consultative committee for the Department of Agriculture, Fisheries and Forestry (the department) to consult with the Australian dairy export industry (industry) on technical and administrative matters in relation to the export of milk and milk products.

The aim of DEICC is to provide an effective and ongoing forum for formal liaison and consultation between the department and relevant stakeholders in the industry. DEICC will consider and provide advice to the department on matters which are relevant to the industry.

DEICC is the primary consultation body for issues relating to the export and certification of dairy products. Operating within the framework of government policies and legislation, the committee will:

- Concentrate on addressing strategic market access and export operational issues encountered by the dairy export industry, with a focus on identifying opportunities to reduce regulatory burdens
- Offer suggestions on enhancing market access for dairy products through departmental processes
- Facilitate effective communication and information exchange between the department, State Regulatory Authorities and the dairy export industry, serving as a valuable conduit.

Membership

The membership of DEICC consists of representatives from:

- Department of Agriculture, Fisheries and Forestry
- Dairy export manufacturing establishments
- Dairy exporters
- Dairy consultants
- Dairy industry representative bodies
- State Regulatory Authorities

Current Membership

While membership is expected to change as the industry itself changes, it currently includes:
