

We are responsible for assessing the biosecurity risks associated with the import of a range of goods from overseas.

We conduct import risk analyses in response to new information about biosecurity risks or to an [import request](#).

Current and finalised analyses

Information about our import risk analyses is available via the following links:

Other risk assessments

The department also has separate, formally agreed processes for undertaking other types of risk assessments.

These include:

Further information

[Register as a stakeholder](#) to be kept informed about current import risk analyses and receive Biosecurity Advice notices on goods of interest to you.
