

eInvoicing

This page contains information for suppliers invoicing the department for goods and or services rendered and the department's preferred invoice transmission method, eInvoicing.

eInvoicing is the digital transmission of standardised invoice information between suppliers' and buyers' software through a secure network. It is a more efficient, accurate and secure way of invoicing rather than sending and receiving invoices as PDFs or other files via email.

Peppol

The Department of Agriculture, Fisheries and Forestry is registered and can receive eInvoices via [Peppol](#). Our Peppol ID is: 0151:34190894983 which can also be found on the [Peppol Directory](#).

For more information on eInvoicing, please visit [eInvoicing \(Australian Taxation Office\)](#).

Further information

Information on payment times can be found in the [Supplier Pay On-Time or Pay Interest Policy \(RMG 417\)](#) which outlines Whole of Australian Government payment times.

For further information relating to Accounts Payable, please contact APInbox@aff.gov.au.
