

We publish a listing of all files we've created or updated in the past 12 months. We're required to do this by [Senate Order 12—Indexed lists of departmental and agency files](#).

What's not included

The listings don't include:

- files transferred to the National Archives
- case related files
- files related to the internal administration of the agency

We may replace words with an '###'. We've deleted them because they refer to:

- commercially confidential information
- identifiable personal information
- matters of national security
- deliberations of Cabinet
