

Australian farmers are among the most productive and innovative in the world. Across the 87,800 farm businesses in Australia, our farmers are constantly assessing and adapting to change.

Farm Household Allowance (FHA) provides help to eligible farmers, and their partners, experiencing financial hardship. It offers planning and training for long-term financial improvements.

FHA is a package of assistance available to cash-strapped farming families, regardless of the source of the hardship. The assistance includes up to 4 years of fortnightly income support in every 10-year period. The first 10-year period ran between 1 July 2014 and 30 June 2024. The second 10-year period is from 1 July 2024 to 30 June 2034.

Claim status and assistance available

Information on claim status and assistance available as at 31 July 2026. Updated monthly.

- FHA has helped around 20,180 farmers and their partners.
- Around 3,700 farmers and their partners are still receiving assistance.

New South Wales

Around 820 farmers/farmers' partners are currently receiving FHA

In total around 7,010 farmers/farmers' partners have received FHA since 2014
