

The Australian Government has committed \$12 million to an inaugural grant program under the Future Drought Fund that supports place-based, First Nations-led initiatives through to 2027-28.

The Program will deliver this investment through community-driven projects that build resilience to dry times and climate impacts, and supports Closing the Gap - Building the Community-Controlled Sector.

Strengthening Drought Resilience on Country Program delivery partners have been announced.

Selected projects include:

Lead organisation	Project location	Project name
Barengi Gadjin Land Council Aboriginal Corporation RNTBC	VIC	Strengthening drought resilience on Wotjobaluk Nations Country
K Farmer Dutjahn Foundation Limited	WA & SA	Seed to sovereignty, strengthening First Nations drought resilience on Country
Northern Aboriginal & Torres Strait Islander Health Alliance Limited	QLD	Place-centred collaborations for a resilient Wet Tropics - strengthening self-determination and cultural continuity across the Wet Tropics Bioregion
Tiwi Resources Pty Ltd	NT	Building climate resilience through First Nations led native rock oyster aquaculture on Northern Territory Sea Country
Yarkuwa Indigenous Knowledge Centre Aboriginal Corporation	NSW	Building capacity and connection to embed cultural practices in climate resilience within the NSW Murray Region

Delivery partners

Program delivery partners are:

- managing the project
- working with Mob to design local projects that help Mob prepare for dry times and the changing climate
- supporting Mob to deliver activities that strengthen their connection to Country.

Delivery partners are not delivering the activities directly, they are working alongside Mob to support delivery.

Watch

More about the Program

See how the Strengthening Drought Resilience on Country Grant places First Nations leadership and knowledge at the heart of building resilience to dry times.

[0:00]

Yura Mob, it's time to lead the way. Projects by Mob, for Mob – building resilience to dry times and climate impacts on our own Country.

The Strengthening Drought Resilience on Country Grant backs First Nations-led, community-driven projects that tackle these challenges head-on.

Delivery Partners will be chosen to roll out place-based projects that build economic, social, environmental and cultural resilience – all grounded in connection to Country.

With up to \$12 million in funding over three years, this is a chance to make a real impact – for our communities, our Country, and our future.

So Mob, it's time to step up and lead strong.

Apply now and shape a resilient future on our own Country.

Deadly change starts with us.
