

This page provides web links to databases which contain information on the Plant Maximum Residue Limits (MRLs) established in Australia and some export markets for industries supported by the National Residue Survey (NRS).

Below this is a section for contract laboratory use, with a link to the list of test chemicals and analyte codes to use when reporting residue results.

Australia

[*Agricultural and Veterinary Chemicals \(MRL Standard for Residues of Chemical Products\) Instrument 2023 Food Standards Code](#) – Food Standards Australia New Zealand [Schedule 20](#) – Australian maximum residue limits (MRLs) [*Schedule 19](#) – Food Standards Australia New Zealand Contaminants and Natural Toxicants

* When referring to the Standard, users must ensure that the “In force - Latest Version” is used.

USA and international

[Global MRL database](#) – A service of FoodChain ID (subscription required for all International MRLs). US MRLs available on FoodChain ID without subscription.

[Code of Federal Regulation Title 40](#): Contains US tolerances for all registered pesticides.

Codex Alimentarius Commission

[Pesticide Index](#) – Codex Alimentarius International Food Standards database

[Pesticides and Veterinary drugs](#) – The FAO Food Safety Collaborative Platform provides access to a number of FAO datasets

Canada

[Maximum Residue Limits for pesticides](#) – Health Canada- Consumer Product Safety

European Union

[EU - Pesticide database](#) – European Commission – Food safety

United Kingdom

[The GB MRL statutory Register](#) – Health and Safety Executive

Türkiye

[MRL Rates -BKU Database](#) - Department of Plant protection Products

Hong Kong

[Pesticide Residues in Food Regulation](#) – Hong Kong Centre for food safety

Japan

[Search engine for MRLs](#) – The Japan Food Chemical Research Foundation - List of Agricultural Chemicals and Veterinary Drugs in Foods

Singapore

[Ninth Schedule](#) – Singapore Food Agency

South Korea

[Pesticides and Veterinary Drugs Information](#) – Food Safety Korea

New Zealand

[Maximum residues Levels for Agricultural compounds and other contaminants \(Veterinary drugs\)](#) – New Zealand Food Safety

[Food Standards Code](#) – Food Standards Australia New Zealand

Malaysia

[Pesticide information](#) – Department of Agriculture – Ministry of Agriculture and Agro-based Industry Malaysia

India

[FSSAI Legislation](#) – Food Safety Standards Authority India - Food Safety and Standards (Contaminants, Toxins and Residues) Regulation, 2011

Taiwan

[Standards for Pesticide Residue Limits in Foods](#) – Taiwan Food and Drug Administration

Indonesia

[Database of Laws and Regulations](#) - MRLs are in Regulation BATAS MAKSIMAL RESIDU PESTISIDA DALAM PANGAN SEGAR ASAL TUMBUHAN

GCC

[GSO standard Store](#) – GCC Standardisation Organisation

Philippines

[BAFS Website](#) – Bureau of Agriculture – Approved Philippine National Standards

Thailand

[Thai Agriculture standard](#) - MRLs are listed in Standard “9002-2559 - National Bureau of Agricultural Commodity and Food [Standards](#)

Vietnam

[Regulations on maximum residue levels of pesticide in food](#) – Vietnam Law website

China

[General Administration of Customs](#) – Government Department

For more information or where the English version is not available

For NRS contract laboratories only – uploading analytical results

Please consult the List of NRS chemicals tested for the appropriate analyte code to use when uploading analytical residue results to the NRS Information Management System (IMS).
