

Australian, state and territory governments offer various forms of financial assistance for farmers affected by mice infestation.

Australian Government financial support

- [Farm Household Allowance](#) which assists farming families experiencing financial hardship.
- Free financial counselling to individuals and small businesses, provided through the [Rural Financial Counselling Service](#) (now administered by the [National Emergency Management Agency \(NEMA\)](#)).
- Immediate tax deductions for capital expenditure on fodder assets used to store grain and other animal feed. Go to the [Taxation measures – Australian Taxation Office](#) web page.
- Other instant asset write-off, accelerated depreciation and tax relief provisions for eligible businesses. Go the [Australian Taxation Office](#) website for more information.
